EDUCATION

Indian Institute of Information Technology, Design and Manufacturing Kancheepuram
B.Tech in Computer Science and Engineering | **CGPA: 8.08**

2027

PROJECTS

Personal AI Assistant — Agentic Autonomous System

- Built and deployed a **personal AI assistant** with advanced agent architecture enabling **real-time reasoning, web search, and persistent memory**.
- Implemented **self-evaluating feedback loops** to ensure accurate, reliable, and high-quality responses.
- Implemented **Retrieval-Augmented Generation (RAG)** for file uploads, enabling context-driven chat experiences.
- Integrated **LangChain, LangGraph, OpenAI API, Tavily API, Playwright and Gradio** for orchestration and external tool usage.

DermaGlass — AI-Powered Dermatology Platform

- Built and deployed a **full-stack AI healthcare system** for automated skin disease diagnosis and intelligent patient assistance.
- Trained and optimized **EfficientNet-B0 (PyTorch)** achieving **93% accuracy** across multiple dermatological classes.
- Designed **agentic workflows using LangGraph** to improve reasoning and response quality.
- Integrated **Generative AI (LLMs)** for structured medical response generation with safety constraints.

TECHNICAL SKILLS

Programming: Python, C++, C

AI/ML: Machine Learning, Deep Learning, Agentic AI

Frameworks/Tools: LangChain, LangGraph, Pytorch, Antigravity, Claude code

Core CS: Data Structures, OOPS, Operating Systems, DBMS

APIs & Systems: OpenAI API, Gemini API, Tool Integration

ACHIEVEMENTS

- Winner — Codeathon (DSA Hackathon):** Secured **first place** in a DSA contest at IIITDM Kancheepuram, demonstrating problem solving skills.
- Captain — IFL League (IIITDM Kancheepuram):** Led the team to **2nd place** in the intra-institute football league, demonstrating leadership and team coordination in a competitive setting.
